Bulbs are State inspected and shipped under certificate of inspection, Bureau of Plant Industry of the State Department of Agriculture and Markets of the State of New York.

Safe delivery and satisfaction also guaranteed; we are the ones who take the risk.

Bulbs are not only guaranteed free from disease and thrips but are backed up by State inspection.

IN PRESENTING my catalogue for 1932 I want to thank you, dear customer, briefly but most sincerely for the liberal way most of you responded to the lower prices quoted in the 1931 catalogue. That is the main reason I am able to make another reduction this year. I believe in small profits as a means of helping to get the business world under motion once more. I want to say right here, that I grow my own bulbs and every bulb is treated before planting for the prevention of any possible disease. I also grow on new ground each year, thus insuring the best in the line of *Gladiolus* bulbs. This, I believe, should be a greater factor in your choice of bulbs than price alone, or any inducement where the quality of the bulbs cannot be fully guaranteed.

SIZES

I am quoting three sizes on most varieties this year—Large (L), Medium (M) and Small (S).

The Large (L) is the size most home gardeners prefer. This size measures from $1\frac{1}{4}$ " to 2" and usually throws two or more spikes. (M) measures $\frac{3}{4}$ " up to $1\frac{1}{4}$ ". These are fine bloomers but are about a week or 10 days later than the (L) size and do not average as many spikes of flowers. (S) average about $\frac{1}{2}$ " and while we could not guarantee this size to bloom it is really surprising the results generally obtained from these little fellows. My Blue Triumphator were all of this size last year and they all bloomed, some having six out with bottom blooms measuring 6" across and six buds to open. Anyway they make the best bulbs for the next year's bloom. Of course, you may say that is an exceptional variety, as it certainly is, but I have found that a very large per cent of varieties will give at least some bloom if well cared for.

DESCRIPTIONS

I try to be honest in my descriptions, to at least try and give a faint idea of what a variety is like in color, etc. But opinions differ and Glads differ on different soils and treatments, and then of course their beauty is beyond portrayal of the human's tongue or pen.

Then how can I be honest
When I know I can't portray
The beauties of the Gladdie
That I saw but yesterday.

But if my faulty fashion
Should lead you gladward near,
I am sure I'll be forgiven
By you, and gladdies dear.

PLEASE READ THIS BEFORE ORDERING

Where quotations are for three or more bulbs it is simply because I can't afford to put up less bulbs and give such good values. You might better order this way and give some away if too many for you, as I shall have to charge half the price of the minimum for one. If the quotation is 30c for three, the price for one will be 15c. Thus I believe you will be helping yourself as well as us by ordering as listed. No discounts on quantities less than \$5.00, but I fill all orders very liberally. Of course, the larger the order the greater the over-count and extras will be. Large wholesale orders will receive usual trade discounts. Please send your list for special quotations on large lots of bulbs and bulbets.

Terms

All orders from \$1.00 up will be prepaid anywhere in U. S. A., but don't expect me to pay C. O. D. collection fees. Orders will be sent C. O. D. when desired.

On orders of \$5.00 to \$10.00, extra bulbs to the amount of 10% of your order free. On orders of \$10.00 to \$25.00, 15%. On orders of \$25.00 to \$50.00 20%. On orders of \$50.00 and up, 25%.

Order early as supply is limited on some varieties. We ship early in the Spring unless otherwise ordered.

Superior Bulbs of Superior Varieties=Satisfaction

Superior Bulbs of Inferior Varieties=Disappointment

**Inferior Bulbs of Superior Varieties={Greater
Disappointment**

If you are just starting to grow Glads would suggest that you try some of the cheaper kinds along with a few of those of the newer and more expensive ones. They are easy to grow and I send complete cultural directions with each shipment.

Your path to glory here below
Lies through the garden that you grow.
